Hey David,

I left you a voicemail about setting up this call. Sara wants to know if would be alright with your office if she and Andrea (the EPA headquarters attorney who has been collaborating on this issue with us) listened in on the call just to stay current with our conversations. Sara could then have a follow up call with Maggie in September. Either way I think we should go ahead with scheduling the call for August 20<sup>th</sup>. However I just realized I forgot to account for the hour time difference between our offices. So the windows for us are 8/20 8-9am or 10-11am but for you would be 9-10am and 11am-noon. Do either or both of those times still work for you and Jim (and Craig, if he will be participating)?

Thanks,

Patrick

Morning Patrick,

I will have to get back to you on scheduling a call to discuss Coyote Station. Maggie is currently very busy with 2 other case briefs she is working on that are due in early September and will not have time to redirect her attention to this matter.

That said, if you think it would add value to discuss without her involvement, either of the times on August 20<sup>th</sup> (8-9am, or 10-11am ) will work for Jim and I. Otherwise, we will probably have to wait until the week of September 9<sup>th</sup> to discuss. Let me know what you think, I apologize for the potential delay – I was unaware of Maggie's current workload until we spoke yesterday.

David

Great, thanks. Also, due to some travel changes the Monday 8/12 times no longer work for us.

Thanks for the available times. I am meeting with Margaret Olson this afternoon, I will check with her then to see if one of these works for her and let you know.
